

# OmniActivation<sup>™</sup>

Activate DirectMail.com<sup>™</sup> audiences for true one-to-one addressable advertising across channels

---

Improve digital and television advertising effectiveness by enabling the use of a single audience definition to reach today's omni-channel consumer. Through OmniActivation<sup>™</sup>, marketers can coordinate campaigns across channels and leverage their own data to deliver the best message to their most valuable customers and prospects. The end result is an efficient, engaging cross-channel advertising strategy — spanning direct mail, email, mobile, online and television — which also delivers insightful closed-loop analytics that prove return on marketing spend.

### Three steps to enable your cross-channel advertising strategy

- 1. Determine your best audience with GeoInsight:** DirectMail.com's patented targeting solution provides best-in-class location intelligence and data visualization to fuel targeted marketing campaigns. Leverage strategic data offerings from DirectMail.com<sup>™</sup> to turn your numbers into information, your information into decision-making intelligence, and your decision-making intelligence into bottom-line growth for your targeting and acquisition programs.
- 2. Find and target the same consumers across multiple channels:** Utilize Experian's digital media buying services, email capabilities, direct mail experience, and partnerships with major online publishers and TV operators to match your audience and launch your brand's one-to-one marketing communications.
- 3. Measure campaign effectiveness:** Through closed-loop reporting, evaluate the online and offline effectiveness of your addressable campaigns to gain insights, determine return on investment (ROI) and improve future cross-channel strategies.
